**Installing SolidWorks 2016**

### Step 1
1) If you are using Windows 7, you must extract the iso files. If you are using Windows 8 or higher you can extract them or mount the iso’s.

### Step 2
1) When the first screen appears, click **Next**.

### Step 3
1) Type in the Solidworks product key.
   - **License**: 9710 0027 8402 1635 G95Q YF69
2) Click **Next**.
**Step 4**

1) A warning message may appear for a Microsoft KB. This is handled by the fixed setup. Click OK.

**Step 5**

1) If it isn’t already selected, select “No, continue installing…”
2) Click Next.

**Step 6**

1) Accept the terms and conditions.
2) Click Install Now.

**Step 7**

1) Type the SolidWorks license port and server information.  
   *Server: 25734@lic-solidworks.engr.msstate.edu*
2) Click OK.
Step 8
1) Point the installer to where you extracted or mounted Disk 2.
2) Click OK

Step 9
1) Deselect “Show me What's New in SolidWorks 2016.”
2) Select “No, thank you”.
3) Click Finish.

Step 10
1) When the previous window disappears, the command prompt from before will remain. As indicated, press Enter on your keyboard to finish the installation.
