

CONNECTING WITH **AIRMEDIA**

AirMedia makes it simple to share your screen wirelessly. Just follow the steps below for your device.

WINDOWS

NATIVE SCREEN MIRROR (Miracast):

- 1. Use the built-in shortcut, “Windows key + K” to open the Miracast menu.**
- 2. Select the display you want to connect to.**
- 3. When prompted, type in the 4-digit code shown on the display.**

USING THE AIRMEDIA APP (alternative to mirroring):

- 1. On your device, open any browser.**
- 2. Type in the IP address shown at the bottom-left corner of the screen. Click “Start Presenting”.**
- 3. Download the app by selecting “Windows”.**
- 4. Once the file is downloaded, run the installer.**
- 5. After installation, open the AirMedia app and enter the IP address.**
- 6. When prompted, type in the 4-digit code shown on the display.**

APPLE MACS

NATIVE SCREEN MIRROR (works with all apple devices):

- 1. Open the Screen Mirroring menu (found in the menu bar on a Mac, or Control Center on iPhone/iPad).**
- 2. Select the display you want to connect to.**
- 3. When prompted, type in the 4-digit code shown on the display.**

USING THE AIRMEDIA APP (alternative to mirroring):

- 1. On your device, open any browser and go to the IP address shown on the display screen.**
- 2. Select "Start Presenting"**
- 3. Download the app by selecting "Mac".**
- 4. Open the downloaded file and run the installer.**
- 5. Once installed, launch the app and enter the IP address.**
- 6. When prompted, type in the 4-digit code shown on the display.**

NATIVE SCREEN MIRROR (works with all apple devices):

- 1. Open the Screen Mirroring menu (found in the menu bar on a Mac, or Control Center on iPhone/iPad).**
- 2. Select the display you want to connect to.**
- 3. When prompted, type in the 4-digit code shown on the display.**

USING THE AIRMEDIA APP (alternative to mirroring):

- 1. On your device, open a web browser and type in the IP address shown on the display.**
- 2. Tap “Start Presenting”.**
- 3. Download the app by selecting “iOS”.**
- 4. Open the app and enter the IP address.**
- 5. When prompted, type in the 4-digit code shown on the display.**

ANDROID

IF THE AIRMEDIA APP IS NOT INSTALLED:

1. On your device, open a web browser and type in the IP address shown on the display.
2. Tap “Start Presenting”.
3. Download the app by selecting “Android”.
4. Open the app and enter the IP address.
5. When prompted, type in the 4-digit code shown on the display.

IF THE AIRMEDIA APP IS INSTALLED:

1. Open the AirMedia app.
2. Enter the IP address shown on the display.
3. When prompted, type in the 4-digit code shown on the display.

MULTIPLE DEVICES

AirMedia can show up to four devices at the same time (for example, a Windows laptop, a MacBook, and an iPad). The layout of the screens is arranged automatically based on factors such as resolution, aspect ratio, and the order devices connect.
